

PRODUCT NAME: SOLVIKA MIX 16250

Coarse Lithuanian 50/50 white and dark peat, 10-30 mm

Basic information	
Type of peat:	Mix of slightly decomposed (50%) and moderately to highly decomposed (50%) high-moor peat moss
Organic matter (of dry weight):	above 90%
Moisture (EN 13040):	35 to 55%
Structure (fraction):	COARSE (10-30)
pH (CaCl ₂):	2.5 to 3.5
pH (H ₂ O) (EN 13037):	3.5 to 4.5
EC (mS/cm) (EN 13038):	below 0.15
Bulk density (natural), g/L:	150 to 250
Packaging (EN 12580):	70L, 250L

Composition and additives	
Peat moss (sphagnum sp.):	50% white, 50% dark-brown
Perlite:	-
Wood fibre:	-
Limestone:	-
Starter fertilizer (NPK 14:16:18):	-
Trace elements:	-
Wetting agent:	-

Description and application
A natural mix of white and dark-brown Sphagnum peat moss, half and half by volume, screened. Nothing is added and it is not chemically treated. Peat is one of the fertilisers and soil conditioners authorised in organic production under Regulation (EU) 2018/848, listed in Annex II of Implementing Regulation (EU) 2021/1165, for use in horticulture. Peat moss is naturally free of plant diseases, weeds and impurities. Application: Basic ingredient for substrates and growing mixes. Soil improvement for blueberries and other acid-loving crops. Made in Lithuania.

Instruction for use and storage
Mix well, aerate and water before using. Store in a cool, dry place, away from heat sources and open flame.

Safety information
This product has no harmful effect on people, animals or the environment when used as a growing medium for plants. Inhalation: if inhaled, provide fresh air. Eye contact: rinse eyes with water. Skin contact: keep open wounds covered and clean, as suggested by any good hygiene programme. Caution: in case of fire, burning may continue inside bags or piles after the surface fire is out. Break bags or separate the pile to make sure the fire is extinguished. Safety data sheet: www.peatmoss.lt/docs/SOLVIKA-16250-SDS.pdf

Typical values for the product. pH to EN 13037, EC to EN 13038, moisture to EN 13040, volume to EN 12580. They are not a guarantee for a single batch: the analysis of a delivery comes with its quotation. Growing conditions differ, so treat the values as a starting point for your own crop.
